Statistics for the SDGs - indicators for national priorities

Name of the indicator	**8.4.a Percentage of paid employees in relation to the number of persons employed in national economy**
Sustainable Development Goal	Goal 8. Decent work and economic growth
Priority	Promotion of stable forms of employment
Definition	Share of paid employees in total number of employed persons in national economy.
Unit	percent [%]
Available dimentions	total
Methodological explanations	Data regarding employment concern persons performing work providing earnings or income. Employed persons include: 1. a. persons employed on the basis of an employment relationship (i.e. employment contract, appointment, election or nomination) or service relationship for a definite and indefinite period of time, according to full-time and part-time work schedules; 2. b. employers and own-account workers including contributing family workers; 3. c. outworkers; 4. d. agents (until 2021); 5. e. members of agricultural production cooperatives; 6. f. clergy fulfilling priestly obligations. When determining the number of employees, each working person is listed only once. For this purpose, a main workplace is assigned to her. Data on people working in the national economy are presented in relation to their main workplace. Data on the number of people employed in the national economy in the main workplace are given in persons as at the end of December.
Data source	Statistics Poland
Data availability	Annual data; since 2010
Notes	Data for 2010-2021 do not include employees of budgetary units operating in the field of national defense and public security. Data from 2022 based on administrative data sources, for earlier years based on reports of entities of the national economy. -
