

## Statistics for the SDGs - global indicators

3.a.1 Daily smoking among persons aged 15 years and older
Goal 3. Good health and well-being
3.a Strengthen the implementation of the World Health Organization Framework Convention on Tobacco Control in all countries, as appropriate
The percentage of persons aged 15 and over who declare that they smoke tobacco daily.
percent [%]
total
The indicator is calculated on the basis of information obtained from the <b>European Health Interview Survey</b> (EHIS). This study covers persons aged 15 and more in households living in the territory of the country.  Data refer to the percentage of persons age of 15 and over who declare smoking tobacco daily in various forms (e.g. cigarettes, cigars, cigarillos, e-cigarettes containing tobacco).
Statistics Poland
Data every five years 2009, 2014.
