

Statistics for the SDGs - indicators for regional priorities

Name of the indicator	12.B.2 Outlays on recycling and waste utilization
Sustainable Development Goal	Goal 12. Responsible consumption and production
Priority	Supporting the development of a closed-loop economy model in order to rationally use resources and reduce the negative impact of manufactured products on the environment
Definition	Outlays for recycling and the use of waste.
Unit	thous. PLN
Available dimensions	total
Methodological explanations	Recycling - recovery, in which waste is reprocessed into products, materials or substances used for their original purpose or other purposes; this includes the reprocessing of organic material (organic recycling) but does not include energy recovery and reprocessing into materials that are to be used as fuels or for backfilling purposes. Capital expenditure - financial or material expenditure aimed at creating new fixed assets or improving (reconstruction, extension, reconstruction or modernization) of existing fixed assets, as well as expenditure on the so-called first investment equipment.
Data source	Statistics Poland
Data availability	Annual data, since 2017
