| <b>Methodological explanations</b>  | <p><b>Local spatial management plan</b> is an act of local law determining destiny, terms of management and development of land, as well as arrangement of public investments. The plan consists of a description that is a text of the plan contained in resolution of the City Council and the drawing of the plan that is a graphical annex to the resolution. It is an optional document, i.e. gminas (communes) do not have the obligation to draw it up.</p> <p>The local plan shall mandatory include, among others:</p> <p>The consequence of the preparation of the local plan is an obligation to draw up documents such as economic impact forecast for adoption of local spatial management plan and environmental impact assessment. The solutions proposed in the plan may in fact significantly affect the transformation of the natural environment and the value of the properties. According to the law the content of the plan is divided into mandatory and optional part. The project of the plan is a subject of public consultations, requires a range of opinions and agreements to which act refers to.</p> <p><b>The geodetic area</b> is the surface area of units of territorial division of the State according to the National Register of Boundaries.</p> |
