

Statistics for the SDGs - indicators for national priorities

Name of the indicator	14.3.b Domestic passenger traffic in seaports
Sustainable Development Goal	Goal 14. Life below water
Priority	Enhancement of Polish seaports position, increase in competitiveness of sea transport and ensurance of sea security
Definition	Number of passengers who arrived at or departed from Polish seaports on passenger ships, cargo vessels and ferries in domestic traffic.
Unit	persons
Available dimentions	passenger traffic: arrivals, departures
Methodological explanations	Domestic traffic covers passengers for whom both the port of embarkation and the port of disembarkation for a sea journey are Polish ports. A seaport is an economic facility located at the interface between land and sea, appropriately equipped in technical, technological and organisational terms to handle trade flows carried out by sea, as well as to service maritime and land transport modes involved in their carriage.
Data source	Statistics Poland
Data availability	Annual data; since 2010
