

Statistics for the SDGs - indicators for national priorities

Name of the indicator	15.1.b Share of legally protected areas in total area
Sustainable Development Goal	Goal 15. Life on land
Priority	Protection and improvement of the environment quality state via protection of biodiversity, including area forms of nature protection, improvement of water quality and protection of water purity
Definition	Share of the total area of the country covered by forms of protection for animate and inanimate nature and landscapes aimed at conserving natural resources, features and components.
Unit	percent [%]
Available dimensions	total
Methodological explanations	The area of legally protected sites of special natural value comprises national parks, nature reserves, landscape parks, protected landscape areas, documentation sites, ecological areas, and landscape–nature complexes. It excludes nature reserves, documentation sites, ecological areas, and landscape–nature complexes located within landscape parks and protected landscape areas to avoid double counting. It also includes the portion of the Natura 2000 network located within national parks, nature reserves, landscape parks, protected landscape areas, documentation sites, ecological areas, and landscape–nature complexes.
Data source	Statistics Poland
Data availability	Annual data; since 2010
